

Aluminium Windows and Curtain Walling

We design and manufacture aluminium windows and mid-rise curtain walling. Aluminium offers an attractive, low maintenance solution for all entrance ways.

Our range is perfect for cladding any building fascia in glass, this allows lots of natural light to enter through the expanse of glass.

This system is suitable for domestic and commercial applications such as schools, hospitals, shops, office blocks etc.

We work closely with the customer, architect or specifier to achieve the desired 'individual' look and specification of the entrance way.

Specifications:

Curtain walling

- 50mm, 75mm 100mm & 125mm systems
- Standard or thermally broken
- Various glazing options: 6mm – 28mm
- The widest range of architectural hardware

Window configurations
