

Aluminium Doors, Entranceways and Shopfronts

Aluminium offers an attractive, low maintenance solution for all entranceways. We design, manufacture and install aluminium doors and shopfronts from an endless range of designs, for commercial and industrial installations.

We work closely with the customer, architect or specifier to achieve that desired 'individual' look and specification of the entrance way.

We'll survey and manufacture your shopfront or door in a few short weeks and our own site managers will make sure the installation runs smoothly.

CAD Drawings and full specifications are produced at survey stage to make sure all your requirements are being fulfilled.

We also have access to the widest range of architectural hardware to help meet your requirements, we understand that it's these details that help make the difference!

Specifications:

Configurations include

- Fixed screen
- Manual door ways
- Automatic doors
- Integrated windows
- Folding/sliding doors
- Integrated roller shutters
- Louvres
- Solid panelling
